IP Enforcement Service

Put Our 14 Years of Experience in
Intellectual Property to Work for You.

IP Enforcement

IP Enforcement has always been the fundamental service of Dahe. So far Dahe has been in the IP field for about 14 years and has provided service to about 100 international companies. No matter in terms of case quantity or quality, Dahe is in a leading position in the industry. Dahe is able to protect clients' lawful rights in an efficient and effective manner.

Dahe's IP Enforcement Service includes:

Investigation Service - Investigation is the key to a successful case. The investigation work of Dahe includes monitoring against key markets and hotspot areas, physical visits and collecting evidence, conducting notarization to reserve evidence, monitoring different kinds of internet infringements, investigating the property status of infringers to ensure that the

IP Enforcement

judgment can be enforced, analyzing infringement information, building and managing the data base for infringement data so as to track and monitor the key repeated infringers.

Dahe believe that the key to a successful investigation lies in the thorough understanding about the product and the industry investigated. Therefore, Dahe divides more than 40 full-time investigators into different teams. Every team is responsible to an industry only. By doing this, we try our best to study and understand the industry thoroughly and do the investigation most professionally.

Administrative Raid – Dahe keeps close contact with AICs and TSBs at different levels to ensure enforcements can be handled timely and justly.

IP Enforcement

Criminal Raid – Criminal cases have the strongest warning effect on counterfeiters. Most of the core staff of Dahe have the experience of working in the investigation department of the Police and therefore have the professional knowledge and rich experience about investigation. Dahe is famous for its skill in handling large-sale and complicated criminal cases.

IPO Action – The lawyers of Dahe have represented numbers of clients to file complaints about patent infringements to local Intellectual Property Office and successfully safeguarded clients' rights.

IP Enforcement

Trade Fair Monitoring & Enforcement – The lawyers of Dahe represent clients to make complaints and conduct enforcement against trade mark, patent or copyright infringements at every Canton Fair. Besides, Dahe helps clients to secure evidence and conduct enforcement at other trade fairs of industries such as electronic devices and foods.

Follow-up actions after enforcement at the trade fairs include sending Cease & Desist Letters, applying to local authorities for administrative raids or intermediation, and filing civil litigation.

Dahe is committed to achieve win-win situations with customers with its top-quality service and most favorable price.
